

RADIATION:

— THE BASICS OF EMERGENCY RESPONSE —

OCTOBER 29TH, 2026

9AM – 1PM

Pike County Emergency Management will be hosting an Ohio Department of Health radiation training that includes presentations and hands-on training with radioactive sources and mockups of a density gauge and a gamma camera.

THE TOPICS INCLUDE:

- Radiation Basics
- Radiation Threats (local & national)
- Hazards & Health Effect of Radiation
- Response to a Radiation Incident

HANDS-ON TRAINING INCLUDES:

- Time, Distance & Shielding
- Alpha, Beta, Gamma Properties
- Screening for Contamination
- Incident Response Exercise

BE PREPARED. STAY INFORMED. SAVE LIVES.

Join us for this important training to build knowledge, skills, and confidence in radiation emergency response.
